HIGH EFFICIENCY EPA- CERTIFIED WOOD BURNING FIREPLACES

If you want the best EPA wood burning fireplace in the industry, Bis should be your choice. Bis offers breathtaking elegance with options beyond your imagination, while providing extraordinary heat in a clean burning wood fireplace. These high efficient fireplaces deliver more heat than any other similar fireplaces in their class. These unique designs offer you a true panoramic view of the most spectacular fire you have ever seen while bringing you exceptional heat and comfort to those cold rooms. Ask your salesperson for information today on these comfort enhancing amenities.

In 1927, Charles Lindbergh flew the Atlantic and Heatilator introduced the first factory-built air-circulating fireplace. The brand name quickly became a household word- "The first name in fireplaces."

Even today, many consumers refer to any heat-circulating fireplace as a Heatilator. But once they've owned a genuine Heatilator, they'll know the difference. Built on the belief that every homeowner deserves the warmth and comfort of a fireplace, the Heatilator brand offers a range of affordable products. Delivering a high level of performance, Heatilator offers products that are hassle-free performance with exceptional value.

We stock a complete selection of Lennox gas and wood burning fireplaces. These high end fireplaces feature energy efficiency, style and elegant designs. Lennox Hearth Products, with over 116 years of brand awareness, offers decorative accessories for each fireplace. They continue to advance their product offering to meet the ever changing market conditions. Lennox is the most powerful consumer name brand offered in the market today and brings added value to your business!
